

## WOMEN IN ENGINEERING SCHOLARSHIP 2017 TERMS AND CONDITIONS

### WHAT THIS SCHOLARSHIP PROVIDES

The Women in Engineering Scholarship for 2017 will provide the following support for the \*expected duration of your undergraduate degree for up to a maximum of 5.5 years:

- 1) Total value of up to:
  - \$24,000 for a 4 year degree
  - \$30,000 for a 5 year degree
  - \$33,000 for a 5.5 year degree

The scholarship will be paid as a cash stipend of \$3,000 per semester. The stipend can be used at your discretion to contribute towards educational related expenses.

\*The expected duration of the scholarship is based on recipients undertaking a full-time study load of 200 credits per year. Any study that is taken over and above the expected duration of your initial degree will not be covered.

If you receive a Centrelink payment, you should declare to Centrelink any scholarships you are awarded.

The Australian Tax Office has a "[Is your scholarship taxable?](#)" tool on their website to help you determine if your scholarship is taxable. For expert advice please contact the Australian Taxation Office ([www.ato.gov.au](http://www.ato.gov.au)) or your accountant.

### Changing courses within Engineering:

If you elect to change courses, you may transfer the remaining balance of your scholarship (as at the time of switching courses) across to the new degree. Any study that is taken over and above the expected duration of your initial degree for which the scholarship was awarded for will not be covered.

### Changing courses to a different faculty:

If you elect to change to a course in a different faculty, your scholarship will transfer to a Curtin Excellence Scholarship in lieu of your Women in Engineering Scholarship. The Curtin Excellence Scholarship is valued at \$2,500 per semester, thus your scholarship total value will be reduced. Any study that is taken over and above the expected duration of the initial degree for which the scholarship was awarded for will not be covered.

### CONDITIONS THAT NEED TO BE MET TO KEEP YOUR SCHOLARSHIP

- 1) You must remain enrolled in an eligible Engineering undergraduate degree at Curtin University. If you intend to change courses, you are required to seek approval for this change from the Scholarships Office.
- 2) Unless there are **exceptional circumstances**:
  - Maintain a full-time enrolment of at least 75 credits per semester at Curtin University. If any study is undertaken below 75 credits per semester, you are required to seek approval for this change from the Scholarships Office.
  - Maintain a course weighted average (CWA) of at least 75 and pass all enrolled units per semester. Academic monitoring of scholarship recipients will occur each semester.
- 3) Leave of absence is permitted for up to a maximum of 12 months over the duration of the scholarship. If you intend to take a leave of absence, you must apply for your leave of absence through your faculty.
- 4) If you cease studies at Curtin, either voluntarily (e.g. by withdrawing from course or units) or involuntarily (e.g. termination from course due to unsatisfactory course progress or suspension, termination or expulsion due to misconduct), you will become ineligible for continuation of this scholarship. The scholarship will cease immediately and you will be required to repay any stipend awarded for the most recent study period.
- 5) The Women in Engineering Scholarship has been awarded for a specific faculty and is not transferable to another faculty or university.

Unless there are **exceptional circumstances**, if you have unsatisfactory progress or breach the scholarship conditions, you shall be ineligible to retain the scholarship. If you do not meet all the conditions outlined, you may be placed on a breached status which would provide an opportunity for you to improve your grades in the subsequent semester. This opportunity would occur only once for the duration of the scholarship.

**Exceptional circumstances** must be forwarded in writing to the Scholarships Office, along with supporting documentation (e.g. medical, counselling). Requests will then be assessed by the Scholarships Office and you will be notified of the outcome once a decision has been reached.

### PAYMENTS

The Women in Engineering Scholarship will commence from semester 1, 2017.

Cash payments of \$3,000 will be paid to your nominated bank account each semester.

Cash payments are based on full-time enrolment of 75-100 credits per semester.

First and second semester payments will occur approx. mid-March and mid-August.

**Note:** Your scholarship payment will appear on your bank statement with the reference as follows: DEPOSIT CONCUR TECHNOLOG CP#####.
