Any material or data obtained through use of the External Scholarship Publication is your ("the User's") sole responsibility and at your sole risk. You ("the User") will be solely responsible for any resulting loss or damage that you may incur or sustain from the use or reliance the Scholarship External Scholarship Publications. Any User arrangements for Scholarships are solely between the User and the Scholarship Provider.

## About this scholarship

### Description/Applicant information

The scholarship has been established to encourage undergraduate and postgraduate research in the field of building regulations in Australia. The scholarship is available for students undertaking study in the field of Built Environment or Engineering at an educational institution. Applicants may be studying full-time, part-time or externally and there are no residency/citizenship requirements.

Research areas identified as priorities by the ABCB Office include sustainability (including energy efficiency), health and amenity, fire resistance, and structure. Research topics that align with the [ABCB work program](#) will be considered.

### Student type

- Current Students

### Faculty

- Engineering
- Humanities

### Course type

- Undergraduate
- Postgraduate Research

### Gender

Non-gender specific

### Nationality

- New Zealand Citizen
- Permanent Humanitarian Visa
